WORK EXPERIENCE

Portfolios website – My resume website (JavaScript Full-Stack Developer) - [Link](#)

Alimor.ir - Tehran, Iran

You can see all my portfolios in more detail with a beautiful design on this website.

Developed by: ReactJs, NextJs, TailwindCSS, and TypeScript for Front-End

Developed by: NodeJs, and NestJs for Back-End

- Optimized websites to improve backward and cross-browser compatibility.
- Validated the structure, security, and compliance of website code.
- Worked on back end to develop server logic protocols and manage database connections.
- Analyzed project requirements, translating specifications into functional application components.
- Developed specifications and performance requirements and resolved customer problems.

Website for finding cafes and online cafe menu with admin panel (JavaScript Full-Stack Developer) - [Link](#)

Berimcafe.paradisecode.ir – panel-berimcafe.paradisecode.ir - Tehran, Iran

A website to find cafes near people and display the menu online using barcodes for sellers.

Developed by: ReactJs, NextJs, NextUI, TailwindCSS, and TypeScript for Front-End

Developed by: NodeJs, and NestJs for Back-End

- Optimized websites to improve backward and cross-browser compatibility.
- Validated the structure, security, and compliance of website code.
- Worked on back end to develop server logic protocols and manage database connections.
- Analyzed project requirements, translating specifications into functional application components.
- Collaborated with the design team to create attractive and user-friendly websites.

Front-End Developer - [Link](#)

FULL-TIME Sep 2023 – Present

Next.ablibrary.net - Qom, Iran

Online Book Reading Platform for Researchers.

Developed a comprehensive platform offering over 18,000 books for researchers to access, read, and annotate for free.

Key differentiator: The platform introduces seamless "continuous pagination," allowing users to scroll through even large books (up to 10,000 pages) without any lag or performance issues, setting it apart from competitors like Fidibo and Taaghche.

Developed by: ReactJs, NextJs (app router), gRPC, NextUI, TailwindCSS, and TypeScript

Please note that this website is still under development and will be ready soon. Contact me to check the website.

- Implemented advanced pagination to ensure smooth reading experience for large volumes.
- Enabled customizable reading themes for user comfort.
- Built a robust note-taking and book labeling system to enhance research efficiency.
- Designed intuitive UI/UX with focus on performance and scalability.

Educational website (JavaScript Full-Stack Developer) - [Link](#)

Edu.paradisecode.ir - Tehran, Iran

A website for learning programming and reading programming articles.

Developed by: ReactJs, NextJs, NextUI, TailwindCSS, and TypeScript for Front-End

Developed by: NodeJs, and NestJs for Back-End

- Optimized websites to improve backward and cross-browser compatibility.
- Validated the structure, security, and compliance of website code.
- Analyzed project requirements, translating specifications into functional application components.
- Developed specifications and performance requirements and resolved customer problems.

Financial management website (JavaScript Full-Stack Developer) - [Link](#)

Pbudget.ir- Tehran, Iran

A website for monthly and yearly financial management with all the features.

Developed by: ReactJs, NextJs, ChakraUI, TailwindCSS, and TypeScript for Front-End

Developed by: NodeJs, and NestJs for Back-End

- Designed APIs to allow outside applications and sites to interact smoothly with websites.
- Developed specifications and performance requirements and resolved customer problems.
- Documented style guidelines to keep the design consistent across the team.
- Wrote clean code to develop functional web applications.

Front-End Developer - [Link](#)

FULL-TIME Mar 2022 – Apr 2023

myjob.ir – Qom, Iran

A website to find the job you want.

Developed by: ReactJs, NextJs, ChakraUI, TailwindCSS, TypeScript.

- Optimized websites to improve backward and cross-browser compatibility.
- Used established coding standards to streamline debugging, documentation, and system maintenance.
- Collaborated with teammates to improve processes and produce better tools.
- Collaborated with the design team to create attractive and user-friendly websites.

EDUCATION

NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)

By Maximilian Schwarzmüller – Nov 2018

React – The Complete Guide (incl Hooks, React Router, Redux)

By Maximilian Schwarzmüller – Feb 2019

NestJS Zero to Hero - Modern TypeScript Back-end Development

By Ariel Weinberger – Oct 2022
